HMG BUILDERS LLC

Commercial Construction & Facility Support

Veteran-owned small business | Northeast United States

Safety. Quality. Relationships.

Commercial construction and facility support for healthcare and institutional environments, with careful planning and coordination around active operations.

CAPABILITIES

Healthcare construction

Clean rooms, infection-control barriers, occupied-facility renovations, utilities, and interior finishes.

Mechanical & HVAC

Air handlers, exterior ductwork, above-ceiling revisions, testing, adjusting, balancing, and commissioning support.

Life safety

Fire and smoke doors, automatic controls, rated assemblies, penetration repairs, and compliance work.

Site infrastructure

Water mains, valves, manholes, directional drilling, paving, testing, and commissioning.

SELECTED PROJECT EXPERIENCE

Wilmington VA Medical Center | Pharmacy clean room upgrade

Temporary clean rooms, infection-control barriers, HVAC and ductwork, air handler replacement, interior finishes, utilities, testing and commissioning.

Coatesville VA Medical Center | Life safety doors

Replacement or installation of 182 fire and smoke doors, associated controls and repairs, and updates to the Life Safety plan.

Coatesville VA Medical Center | Water mains and valves - Phase 1

Approximately 6,400 linear feet of campus water mains and valves, with excavation, directional drilling, paving, testing and commissioning.

References to agency experience describe past project environments and do not imply agency endorsement.
